

FFT

Solve the systems of equations, use 0, 1, and -1

Step A

$$2x + 1 = -1, 1, -3$$

$$3x + 2 = 2, 5, -1$$

Step B

multiply points together

$$-2, 5, 3$$

Part C

$$(0, -2)$$

$$(1, 5)$$

$$(-1, 3)$$

Part D

Solve the system of equations
