

- idea & reality conflict
- economics did not support slavery
- tobacco was on decline
- robbing slave owners money
- failures - racism
- Southerners could not imagine an integrated South
- idea - end slavery & move slaves elsewhere
- Northerners were to be taxed
- Liberia was created, Monrovia & Buchananville
- slaves weren't willing
- fear of uprising slaves,
- 1832 - Nat Turner Rebellion (slaves)
- 1832 - VA legislature debated a bill to encourage private owners to free slaves
- new use of slaves - cotton
- cotton - longstaple & shortstaple
- long has few seeds
- short has many seeds
- only longstaple can only be grown in sea islands off of GA
- 1793 - cotton gin was made to remove short
- wars in Europe lasted til 1815, disrupting the market
- depression til 1823 - hindered
- cotton kingdom comes after
- gave slavery new life - cotton was #1 for Southerners
- and entire U.S.
- $\frac{1}{3}$ GDP was connected to cotton

- slavery is a positive good
- sides split - South succeeds
-

History

* After Civil War

- after Civil War, the nation was singular again
- and of state's rights
- Fred Kent - blacks were not citizens of Const. did not apply to them
- 3 amendments to Const. - 13-15
- 13 - ends slavery
- 14 - civil rights to everyone born in country
- 15 - guarantee to right to vote
- what rights states did have were given up during the Depression
- a radical party wanted widespread land ownership
- in 1877, a deal was struck between northern business owners
- Northern support for the New South
- Reconstruction ended in 1877 without achieving the goals
- in 1890s, "Rode of the Rednecks" - South repressed blacks economically, slavery under different names
- white nationalism
- had to do it again in 1950s & 60s

* Issues

- expansion, nationalism, industrialization
- Hamilton wanted a nationalist & industry gov't
- too many people objected to it - Jefferson led that group
- 1850s - takeoff point for North to have industry
- 1860 - US mostly agricultural, loosely confederated community
- by 1900, a single industrial nation was born & most powerful

* Industrial System

- natural resources
- labor force (cheap and large)
- capital
- markets

- the idea is to have all in one place - the national gov +

History

* Nationalism

- natural resources, labor, capital, markets, free defense
- government subsidies of industry
- railroads, especially in the Plains area
- huge land grants
- towns also gave money to have railroads through the towns
- U.S. bought the railroad
- gov't ended the voting prohibition
- labor organized for fairness, gov't worked hard to suppress labor organizations
- tariff policy & taxation
- federal land sell & tariff duties were only money makers for gov't
- state & local - land taxes
- industry paid not alot of taxes

* Economy

- 1865 - 1868 - recession
- 1873 - 1877 - collapse & depression
-

History

*

- the demand for goods ended in 1865
- late 1860s - 1868-1873 - boom in railroads
- 1873 - panic and long depression, 3rd greatest
- all aspects of life were affected
- businessmen needed to end competition as a consequence

* search for order from businessmen

- gentlemen's agreements - no contract or law, but trying to solve a serious problem
- expansion
- merger movement - "era of trusts" for stability
- 1893-1897 - depression
- railroads - no business could expand, J.P. Morgan makes Southern Railroad Company
- 5000 > 300, of those 300, 158 were made 1898-1902
- consolidation & control
- oligopoly - control by a few
- communications - Western Union
- finance - J.P. Morgan, controlled Hanover, Chase, New York Life
- age of industry to age of finance (capitalism)
- finance becomes more important than industrialists
- Morgan wanted to combine Federal & Carnegie steel
- Morgan said "done", created U.S. Steel Corporation
- NY & PA railroad wanted to compete, Morgan convinced them not to

History

* Unions

- National Labor Union (all workers) ↓
- Knights of Labor
- Industrial Workers of the World - IWW - nicknamed as "The Wobblies"
- Big Bill Haywood ↑ president, known next to Lenin
- Industrial Union
 - organize all workers in a particular industry,
 - resulted in violent reaction by business & gov't
 - union was a threat to ownership of the companies
 - attitude toward work was job owned by worker
- United Miners survived
- examples - Great Strike of 1877 & Haymarket Square of 1885 - led to Knights decline
- was a square in Chicago, strike against a newspaper company
- anarchists there also made a rally in square to spread ideals
- police forces - bomb throw at police - police fired killing men, women, & children
- aftermath - anarchists speakers were charged with murder, trial and sentenced them to death
- the governor could have pardoned if they asked for clemency
- Knight - 700,000 from 1877 to 1885, down to 50,000 by 1890
- Haymarket Strike of 1892 - Carnegie - "liberal on labor"
- Henry Clay Frick - general manager - posted dramatic cut in wages

- Frick wanted the union to strike to lock them out
- workers did not leave the plant, sitdown strike
- Frick hires Pinkertons to guard the plant & broke up unions
- there was a barricade, gun battle between Pinkertons & workers
- governor sent in militia
- Frick was struck & shot twice, but did not die
- Pullman Strike of 1894 - worst year of depression, innovator in railroad industry, transformed travel
- he created Pullman palace car - suspension, plush chairs, sleeping quarters
- he didn't sell to railroad, but leased them
- no need to change train cars
- he said the problem labor has is the environment
- built new factory in Chicago, well lit, safe, airy, built a town around it
- if you worked at the factory, you had to live in the town, company town
- an investigator - it's hell there, rent is higher, all is higher, & you use their currency
- there were rules, no drinking, you can't go outside without dress code, would look at apartments inside
- Pullman cuts wages, not of living cost up

History

* Strikes

- Great Strike - 1877
- Haymarket Square - 1885
- Homestead Strike - 1892
- Pullman Strike - 1894

* E. U. Pels

- ARV announces a boycott, will not handle any trains with Pullman's palace cars
- governor of IL was appealed to (John Peter Altgeld)
- he did not intervene
- then appealed to others, there is no federal principle involved
- once mail cannot get in, feds intervene in Chicago
- injunction - court order to do or not do something
- order to end strike, but they chose not to
- charged with against Sherman Anti Trust Act, first time used against a union
- Pels & Hoffman sent 9 years in jail
- while in jail, Pels reflected on labor movement, said that there was too many foes
- only by controlling those sources would things get better
- he forms the Socialist Party, was Presidential Candidate for many years
- trades union - organizes of a particular trade, skilled labor
- very specific & focused on interest of their members only

p. 12, 14

- conservative - not threatening, does not want to alter capitalism
- Columbus, OH, 1886 - trades union act & formed a national union, under American Federation of Labor
- Samuel Gompers
- 2 million organizers, 1.5 million tried to AFL

* Vaudeville

- Era of James Russell 1865 - 1919
- The Grange
- producer co-ops
- policies - govt intervention
- Frank Vander - wrote Wizard of Oz, all about the farmers revolt

* Labor

- craft system is old, factory system is new
- factory = labor + capital + resources → product
- interchangeable part & machines
- Eli Whitney ↑
- Colt - gun producer
- price of labor = wages, hours, & conditions
- labor needed to cooperate, businessmen did also
- The One Big Union Approach - representing all of labor
- National Labor Union

* Great Strike of 1877

- depression, profits low
- Baltimore & Ohio RR were laying people, but it was increasing its dividends to stockholders
- wildcat strike - no union involved
- response of authority is violent - riots
- convinced workers to organize
-

* Labor

- cost of labor is high, but it is not the only cost
- factors: labor, capital, land, and entrepreneurship
- interaction of all four factors
- The Value of the Marginal Product of Labor
- All four factors are variable
- cost of labor is high, but it is not the only cost
- labor is the most abundant factor in the economy
- The Law of Diminishing Returns: as more of one factor is added, the total output will eventually decrease

* Short Run & Long Run

- In the short run, at least one factor is fixed
- In the long run, all factors are variable
- The short run is a period of time in which at least one factor is fixed
- The long run is a period of time in which all factors are variable
- The short run is a period of time in which at least one factor is fixed
- The long run is a period of time in which all factors are variable

History

* Politics

- a moving away from frontiers to modern industrial America
- politics becomes an industry
- there are two principle businesses - Democrats & Republicans
- not responsive & avoids controversy
- power was in the Senate, President was not powerful
- Johnson, Grant, Hayes, Garfield, Arthur, Cleveland, Harrison, Cleveland, McKinley
- many third political parties existed
- all parties have a common trait - they want gov't to take responsibility for something
- abandonment of laissez faire

* 1890s era

- on the left - too great concentration of wealth & needs to be broken up by restrictions on property
- in 1892, leaders of the left meet in Omaha to make the Populist party
- on the right - progress of capitalism since Civil War & amassment of wealth, the restrictions on property would undermine it
- J.V. Morgan, Carnegie, T. Roosevelt, Alfred T. Mahon, Henry Adams, B. Adams, John Hay
- Bryan ran as a Democrat & Populist
- Populist party was absorbed by Democrats

1	China
---	-------

- New Imperialism - expansion of industry,
- old was expansion of land

History

- * Expansion
 - agricultural imperialism
 - acquisition of land in the West
 - land was to be used for agriculture
 - 1803 - Louisiana Purchase
 - 1846 - 1848 - conquest of northern half of Mexico
 - Oregon Territory - 1819 claimed, 1848 settled
 - by mid 19th century, all present territory had been gained
 - manifest destiny
 - that generation thought expansion would continue
 - acquisition ≠ settlement
 - 100° & Rocky Mountains - region not suited to agriculture
 - settlers went to CA & OR rather than stay in the midwest
 - belief: big trees = fertile soil
 - midwest was called - "Great American Desert"
 - no trees, grassland, arid, rivers are shallow & few for river transportation, grass seed
 - settlement came around later half of 19th century
 - Industrial Revolution + midwest = industrial agriculture
 - barbed wire, railroad
 - during Civil War, U.S. made Department of Agriculture
 - dry farming conserved moisture in soil
 - fertilizers & insecticides
 - gov't subsidizes railroad
 - gov't offered free land to a family who lived on it for a year

- steel plows, machinery, like reapers & harvesters
- 1890 - census report said there was no longer a frontier in America
- indicates AI comes to an end
- # of farmers increased up to 1890
- was very significant
- 1893 - based on that, Frederick Jackson Turner wrote "The Significance of the Frontier in American History"

- best known ↑ analysis
- Henry Adams - "The Virgin & the Dynamo"
- from natural to mechanical ↑

* Nationalism

- can all of it be governed from a single source?
- Jefferson thought there would be many Americas
- would you want to?
- authors of Constitution were nationalists
- Jefferson & his followers were not
- Hamilton was nationalist
- 1810s - 1830s - silver
- Southerners promoted a single nation - 1776 - 1832
- slavery was wrong ↑ liberal South
- Jefferson & slave owners ↑ VA
- Patrick Henry & slave owners ↑ VA
- Washington & from VA & slave owners

History

* Foreign Policy

- Teddy was an imperialist
- He comes in as President in 1901
- speak softly & carry a big stick
- realism - when you have the stick, use it, if not, speak softly
- Platt Amendment - remove troops from Cuba - establish protectorate not colonies
- Cuba can do what it wants unless its against American policy
- we withdrew from Cuba
- 1903 - Colombia rejected turning in isthmus of Panama
- it then became a country under U.S. protection
- 1906 - Cuba did something we didn't like
-

History

* Practice Exam

- Why did the trade union succeed? - non threatening, specific
- Dels was the socialist
- Gospel of Wealth - duty to get back

* 3 part solution

- acceptance of corporate America - as frontier
- McKinley was an endorsement
- America must expand (via industry) "New Imperialism"
- undermine threat to property
- aimed at China

* New Imperialism

- 1898 - Cubans revolted again
- yellow journalism
- Randolph Hearst & Rose Bud
- McKinley send ship Maine to Havana Harbor & was blown up
- people wanted to start war with Spain
- no political intent of all - not much reason
- war with Spain to free Cuba
- Spanish American Cuban War
- Cuba Libre
- first battle was in Manila Bay in Asia
- only lasted a couple months ended with "Peace of Paris"
- U.S. acquired Puerto Rico, Guam & the Philippines
- annex Hawaii in 1898
- Alaska & Wake

- 1900 - McKinley, was
- S.W. L. Day - Open Door Notes - we will support an open door in China
- we oppose exclusive access, but we thought we would dominate
- open door is still our policy
- 1901 - McKinley was assassinated by an anarchist
- there was concern that Teddy Roosevelt would run amuck
- he was the Northern Securities Company under Sherman AT Act
- 1902 - Anthracite Coal Strike - pro labor
- "The Square Deal"
- Teddy's analysis was support the corporate state, but the public must believe it is in their interest
- he said that economic power condensing is a good thing
- the actions must be in the interest of the whole
- the gov't should correct the problem - Teddy is a conservative
- being big isn't a violation, bad actions are
- the strike - gov't intervenes for the labor
- 1903 - Department of Commerce & Labor
- Elkins Act - strength Interstate Commerce Commission
- Hepburn Act further strengthens the ICC
- Pure Food & Drug Act - FDA
- Meat Inspection Act - USDA
- Progressive Reform Movement

History

- * Taft chosen, and to achieve his goals
- TR chose Taft, he was not a politician
- Taft was a failure
- 1905-1910 - TR's plans were ruined
- 1912 House elections - TR tried to fix it, Taft ruined it all up
- 1910 - Democratic Revolution
- Taft sued corporations way more than TR
- U.S. Steel Corporation bought TR Coal & Iron Company
- 1907 - economy weak, Morgan came to TR to save economy, TR said he would not suit, it was a secret
- TR said he would be Repul. candidate in 1912
- * Elections of 1912
- at the Repul. most wanted TR - TR consolidated power in his term
- Repul. nominated Taft
- TR established the Progressive Party (Bull Moose)
- Democrats - Wilson got nomination
- Socialists - Debs
- all candidates believed U.S. had a place
- TR used "new nationalism" + "square deal"
- Wilson said from his book "New Freedom" - disagreed with TR, said concentration of economic power is not inevitable, he called new imperialism "anti-dollar diplomacy", based on human rights instead

1912

- Wilson advocated socialism at home, peaceful foreign policy
- Taft got 23.2% popular vote
- TR - 27.4%
- Wilson - 41.9%
- Debs - 6%

History

* New Freedom

- 1913 - special session of Congress (for New Freedom)
- Underwood-Simmons Tariff - included was an income tax, progressive
- 19% - 5% > \$5000
- adoption of Federal Reserve System
- It was a compromise of New Freedom & the Nationalists
- establishes a federal banking system
- 12 district banks established
- Federal Reserve Board over them
- half voted in by Pres, half by stockholders of bank

* 1914 - Regular Session

- Federal Trade Commission - regulate marketplace
- Clayton Anti-Trust Act - strengthen Sherman
- exemption of labor union - $\swarrow$ Sherman could be used against labor unions
- Federal Warehouse Act - providing warehouses for farm
- 8-hour day for workers
- child labor laws
- Louis Brandeis - first Jew in Supreme Court
- Louis behind New Freedom
- August 1914 - WWI starts
- * Welcomes foreign policy

* WW I

- Congress of Vienna establish a balance of powers amongst France, Britain, Austro-Hungary, Prussia, Russia
- nationalism eroded the power
- Germany & Italy emerge
- to deal with Austro-Hungary, two Parliaments - Vienna & Budapest - dual monarchy
- Franz Ferdinand proposed a triple monarchy
- Smerio - another Parliament
- Allied - France & Russia
- Central Powers - Germany, A-H, Ottomans
- Italy & British try to stay out
- Germany wanted a large army
- Germany wanted a navy like Britain
- it was an arms race
- Franz Ferdinand was assassinated
- no one expected a war
- Austria declared war on Serbia
- Russia → Austria
- Germany → Russia
- Germany was to take Paris,
- France → Germany
- Germany → Belgium
- UK → Germany
- 1914 - 1918

* WWI

- 1917, Germany cuts off allies
- wanted to end the war before U.S. entered
- we have no military (standing military)
- miracle of mobilization - US was able to get military to Europe
- Nov. 1918 - German govt wanted armistice

* After The War - New Reconstruction

- 1917 - 1919 - golden age of agriculture
- war industry is born
- fuel administration
- US Railroad Administration
- War Labor Board - reduced strikes & improved conditions
- Progressive Income Tax
- 1919 - 19th Amendment - women's right to vote
- 18th Amendment - bans alcohol
- Sabotage & Sedition Acts

* Treaty of Versailles

- Germany was revered before the war
- League of Nations
- Germany was not given opportunity for their word
- wanted to stop revolutions
- nobody read the treaty

* H.C. Lodge

- 3 P's - personality, policy, politics
- Lodge hated Wilson
- politics - Republicans are not going to allow the treaty to not be changed
- policy - Wilson took Open Door & internationalizes it,
- Lodge led the moderate Republicans
- If we would have joined the League of Nations, 1939 war might not have been
- 1919 - tailing off of Paris Flu
- at end of war, there was not a good world card
- inflation
- 1919 - Red Scare

* Fed Reserve

- election of 1920 - Rep. Harding
- "return to normalcy" ↑
- going back to McKinley
- The New Era - give business freedom
- too stupid to do anything
- he drank, played bridge, chased women
- dies in 1923
- his vice, Coolidge, steps up, he removed himself from the scandals, 1923 - 1929
- Coolidge was like Harding
- "he who builds a factory builds a temple. Those who work there worship there."
- Coolidge is the sleep Pres. - slept 12-14 hours a day
- "the more I can sleep, the less I can do. the less I can do, the better for the nation"
- "the business of America is business"
- 1921 - 1929 - industry & wages improved
- led by increases in productivity
- principle of scientific management - increase efficiency
- Fordism - mass production, didn't invent assembly line
- by 1925 - a completed automobile coming off the line every 10 seconds
- mass consumption is needed
- consumer credit needed
- advertisement

- "aspirin age" - 1920s
- rural vs. urban
- 1920 census - 50% both ways
- 1990 census - 97% vs. 3%
- 1990 - 3% vs. 97%

- 3 evidences

1. growth of religious fundamentalism - saving souls
prevent teaching of evolution in schools

1925 - Scopes trial - it was staged by ACLU

Clarence Darrow was defense, W. Bryant was opposed

2.

2. they both
1. Western
6. Treaty of Versailles - yes
8. Lost generation - WWI
14. One of cause - early 20s purchasing power distra

Roosevelt was a conservative - FDR

people were desperate

all of the above

* New Sea of Voltaire 3 points

- religious fund.

- crusade of teaching evolution

- Scopes trial

- 18th - Prohibition

- West & South imposed views on North

- KKK - 2nd class - Isolated American values

13. during the 1920s, KKK actively recruited new members

- The lost generation of the 20s - The Flaming Youth

- they believed that Freud argued of the subconscious

- Henry Adams - The autobiography - no dark & negative, he didn't allow to be printed

- Moby Dick

- Dorothy Parker - part of Algonquin round table

- literature - hedonism, alienated (expatriates) (E. Hemingway, F. Scott Fitzgerald), satire about culture, Southern Renaissance (southern writers not part of norms)

- Harlem Renaissance - Hughes, Langston, jazz

3.31.09

* The Crash

- Oct. 1929 - the crash
- it was over the course of months, not one day
- an imbalance between productivity & consumption
- prod $\downarrow$ & con $\uparrow$ = inflation
- the opposite is deflation
- the govt policies continued to place most improvement on prod. & not con. side

* factors

- regressive taxes - tax lower income
- high tariff policy - Republicans were high tariff (Hardy - most)
- wage decline
- agriculture - autos & construction gain, but agriculture stays same

*

- Hoover built confidence with leaders in economy

- Hoover was Rep.

<u>Year</u>	<u>VOI</u>	<u>Wages</u>	<u>GNP</u>	<u>% change</u>
1929	95.3	1,405	104.1	3.2
1930	86.4	1,368	98.1	8.7

1.9.09

* Roosevelt

- would talk on the radio
- news reels at the beginning of movies
- "New Deal"
- "for the forgotten men"
- not too bright
- Democrats increased their #s in both House & Senate
- Intergovernment - Hoover rejected, Roosevelt not Pres. til March
- during this, the depression reached its worst state
- He wanted the least amount of change
- the Braintrust were his advisors
- - one President... 3 things
- 1. - close all banks... bank holiday
- he allowed bank to shift capital
- 2. - end prohibition
- 3. - special session of Congress - to act against depression
- He wanted to restore confidence
- relief, recovery, & reform legislation
- - 3 acts
- National Recovery Administration Industrial Act
- AAA - Agricultural Adjustment Act
- Tennessee Valley Authority

- NRA designed to make the #s better

	WPI	Wages	GNP	% unemployed
1929	95.3	1405	109.46	3.2

1932	69.8	1120	76.4	23.6
------	------	------	------	------

1933	65.9	1040	74.2	24.9
------	------	------	------	------

- NRA has 3 parts
- National Recovery Administration - suspend trust laws to allow businesses to set prices higher
- public works - gov't will hire
- section 7A - businesses had to allow workers to unionize
- gov't would pay money out to grow prices

9.14.09

* First New Deal

- first 100 days, reverse the numbers
- NIRA - 3 parts - all 1933
 - NRA - raise prices
 - section 7a - labor unions
 - public works - put people to work
- AAA - raise agriculture prices
- TVA - create regional authorities to oversee recovery in that region
- reshape social arrangements
- the first bond had a broad approach
- it was idealistic, I say people would come down
- WW II changed it from broad to primarily producing power

* Manhattan Project at Oak Ridge

* Numbers

	WPI	Wages	GNP	% m.	
1929	95.3	1108	104.4	3.2	
1933	65.9	1048	74.2	24.9	
1934	74.9	1091	80.8	21.7	- pens increase
1935	80.0	1137	91.4	20.1	
1936	80.8	1184	100.9	16.9	

* Politics

- on the right, American Liberty League
- Father Coughlin
- fascists
- Supreme Court

* Inter War Diplomacy

- Latin American, Europe, & Asia
- Roosevelt continuing drawing back from Latin America
- "Good Neighbor" policy for Latin America
- withdrawn from Haiti
- Treaty at Montevideo - 1933, no nation in this hemisphere can intervene in internal affairs of other nations
- Cuba - 1934, we renounce our right to intervene
- Panama - 1936,
- D.R. - 1940
- during WW II, Latin America minus Argentina was on Allied side

- Weimar - capital of Germany

- Jan 1933 - conservative gov't brought in Hitler as chancellor

* Hitler's policies were traditional

- domestic policy - reform, massive public works
- Ottoman Bismarck had same strategy
- foreign policy - two goals to unite all Germans in Europe under one state - the Third Reich & control Eastern Europe

* ⁱⁿ

- 1935 - Germany announces rearmament
- it becomes a revisionist power to change Versailles
- 1937 - Italy invades Ethiopia (revisionist)
- Mussolini wanted to recreate the Roman Empire
- 1936 - Hitler moves troops into Rhineland

- 1936 - Spanish civil war, was a left gov't
- it was accepted internally that we should have not fought in WWI
- Neutrality Acts of 1935-1937
- 1938 - Austria annexation
- Sudetenland
- fall 1938 - Allies meet with Germany & Italy in Munich
- the allies agreed to give Sudetenland to Germany
- 1939 - Non Aggression Pact between Germany & Russia
- 1940 - only Britain remains
- Dec. 7, 1941 - Pearl Harbor

1.21.09

Final

1.30 on Thursday

* WW II in Asia

- US was in war before Pearl Harbor
- rising powers - US, Japan, Germany in 1800s
- Japan had limited resources, but needed resources from China
- US was "Open Door", wanted China to open
- 1905 - Teddy negotiates settlement on Russo-Japanese War
- he also wanted to build a navy
- we talked, they agreed, we supplied Japan
- as long as China wasn't united, Japan would do whatever
- 1911, Sun Yat Sen - nationalist movement in China to unite it & kick West out
- China & Mo - divided, fought against in Civil War, but if either won, then China would unite & Japan would consider it a threat
- Japanese - maintain US friend, & get long term goals
- more united power now without regard to US
- 1931 - Japan invades Manchuria, northern province of China
- Japan becomes a revisionist power
- 1933 - Japan leaves League of Nations
- 1937 - Japan invades China, we do nothing about it
- Roosevelt has moral embargo, but still exports to Japan
- 1938 - Japan wants East Asian Co-prosperity sphere, "Closed Door"
- 1940 - Japan makes bases in north Vietnam

- we begin to supply those who resisted Japan
- Japan moves to bases to Saigon
- we began to squeeze supply to Japan
- by fall 1941, all was cut off
- we expect Japan to attack south (East Indies)
- on Japanese side, planning - if we move South, US will enter, so they decide to attack Pearl Harbor to prevent the US fleet from preventing it

* WW II in Europ

- Battle of the Bulge
- Japan lost at Wake
- 1945 - two atomic bombs dropped
- VE-Day in Europe is April 1945
- US remains only country to use nuclear weapons

4.23.09

- * 1945 - end of war
- 1914 - 1945 - Age of "Europe"
- 1914 - 1945 - Europeans committed suicide
- 1947 - in Greece - Truman Doctrine, we will send aid to any country to stop revolution
- US becomes the world's conservative power
- none could challenge the US
- the next century would be the American Century
- Marshall Plan - rebuild Europe
- Rio Treaty - defend security of our hemisphere
- NATO - 1949 - permanent military alliance
- 2nd permanent treaty
- we put money into the nationalist faction in China
- 1949 - Mao Zedong - nationalist escape
- we rebuild Japanese economy
- aid French empire & British empire
-

9.28.07

* After WWII

- Marshall Plan - rebuild Europe
- Rin Approach - rebuild Japan
- wanted to defend South Korea
- military presence in peacetime

* Truman & Cold War

- Truman's policy wanted to continue the New Deal & expand it to the Fair Deal
- to avoid another depression...
- G.I. Bill - provided money to returning soldiers to go to school & buy homes
- we pour money into Europe & Asia
- 1946 - Full Employment Act
- but there were more failures than successes
- Republicans became majority since 1948 & they began to dismantle the New Deal 1946-1948
- Truman's extensions didn't get far, SS extension
- universal healthcare
- reorganize structure of gov't
- CIA & Defense Department I did get through
- he later hated the CIA
- Truman's campaign against Dewey
- Miracle of '48
- he calls special session of Congress in 1948
- to give Republicans the chance to do something
- he then campaigned against the "do nothing Congress"

- the key was foreign policy

*

- Korean War started in 1950
